Education

2020
High School Diploma
Kaushik Shiksa Niketan

2024
Bachelor Of Technology
Poornima Institute of Engineering & Technology

Skills

- C/C++
- DSA
- Python
- Flask
- HTML
- CSS
- Javascript
- Bootstrap
- SQL
- React js
- Git & Github

Experience

○ July 2023 - September 2023
The MIS Expert | Remote

Software Engineer Intern

- Learned software engineering process improvements and best practices.
- Wrote clear, clean code for various projects.
- Developed Translator project using **Python** programming language.
- Delivered project reports and milestone updates to supervisor.
- Maintained strong knowledge of evolving technology trends.
- Coded websites using **HTML**, **CSS**, **JavaScript**, and **jQuery** languages.

Projects

○ **Translator Web Application**

The Multi-Language Translator Web Application is a user-friendly and efficient tool that allows users to translate text from one language to another in real-time. The application will be built using the **HTML CSS, Bootstrap, Python Flask framework**, which provides a solid foundation for web development, and it will utilize various language translation **APIs** to provide accurate translations.

Key Features

- Users can input text in one language and select their desired target language for translation.
- The application will use language translation APIs (such as Google Translate API) to perform the translation.

○ **To Do Web Application**

The To-Do List Web Application is a practical and organized tool that enables users to manage their tasks efficiently. This project, built using the **Python Flask framework,** showcases the implementation of backend functionality for creating, updating, and organizing tasks within a user-friendly web interface.

Key Features

- Users can create, view, update, and delete tasks on their to-do lists.
- Tasks can have attributes such as title, description, and status (completed or not)

Extracurricular

- Review paper was selected in the ICPCC 2021 Conference and published in STM journals
- Winner in Badminton at collage level
